

## **Brynn Pierce**

“New Zealand is a great country; abundant natural resources, accessible tertiary education, and a national identity which is trusted around the world. Yet, an increasing number of young people are leaving the country for opportunity elsewhere. We need to bring that opportunity home. I want to help make New Zealand a better place; a country of prosperity, where it is easier for youth to do well. To represent the people to make our country a better place.”

**Selecting MP: Andy Foster**

**Location: Wellington**
